# ABOUT US

**M/S VIJAY TECHNICAL SERVICES & CONSTRUCTION PVT.LTD** was established on 26 May, 1989 as a "Private Limited Company". We feel pleasure in introducing ourselves as one of the competent, qualified engineering company offering you all types of versatile MEP services related to our line on very reasonable rates. Our expertise in the area of facility management services, new electrical, plumbing & fire fighting installation on turnkey basis, building renovation, modernization and augmentation works including civil and interiors, up-gradation of existing electrical, plumbing, HVAC, fire fighting works is well known in market. Quality and assurances of our services is our evident clientele. Our area of operation is major in Delhi and NCR.

## The primary focus of the company is on

- ➔ **New electrical installation** from point wiring to 11 KV sub-station including supply, installation, testing and commissioning of HT Panel, Transformers, D.G, Sets, LT Panels, Sub Distribution panels, Distribution boards, cabling, cable trays, race ways, rising mains, conducting, wiring, earthing, lighting fixtures etc. Also we undertake job related to fire alarm system, CCTV system, Burglar alarm and Security System, Telephone exchange & EPABX Systems, lifts etc. on turnkey basis. The company has expatriation in up-gradation & modernization of existing electrical installations with minimum load shut-down.
- ➔ **New fire fighting installation** from pump room to sprinkler including supply, installation testing and commissioning of main fire hydrant / sprinkler pump sets, diesel engine operated main hydrant & Jockey pump sets, hydrant riser & distribution system up to the line hydrants, automatic sprinkler distribution system, pump room piping installation, water curtain distribution system & fire extinguishers etc.
- ➔ **New plumbing installation** from pump room to taps in the toilets including supply, installation testing and commissioning of hydro – pneumatic water distribution pump sets, water filtration & treatment systems, .R.O. Systems & Water Softeners, Sewerage treatment plants ( STP & ETP) External & Internal C.I / u PVC sewerage & drainage piping system, external & internal Copper / c PVC / GF – Pert / G.I / PPr / Stainless Steel water distribution piping system, Solar thermo siphon / pressurized heating Systems, Oil – fired / Electrical central heating system, Swimming Pool re-circulating water distribution cum filtration system, bore well & rain water harvesting system, installation of sanitary wares & plumbing faucets etc.

- ➔ **Our facilities management services** include a comprehensive management of all core and non – core services that go into the day-to-day running of the inside of an office / building space is called Asset Management. This involves providing preventive and predictive maintenance services ranging from operation of various technical systems like water supply, power and Air – Conditioning systems etc. We believe that facilities management is more than just creating a functional work place. It is the work place that allows our client organizations to function as efficiently as they possibly can, without distractions. This allows our clients to focus on what they are good at doing and leave the management to us.
- ➔ **New Air-conditioning installation** includes Central air-conditioning system including chillers, cooling towers, condenser and chilled water piping, Air- handling units, fan coil units and piping etc. Also VRV system with indoor units, outdoor units & allied piping. Also we undertake ducting and ventilation system for the new buildings.

**VIJAY TECHNICAL SERVICES & CONSTRUCTION PVT.LTD** is facing the challenges of today's complex business environment by balancing experience with change and ongoing improvement. We are committed to respond to our customer's needs in every possible way – from new product offering, environmental responsibility and communications to final delivery. As we renew and re – engineer our capabilities, our focus on quality, reliability and innovation remains constant since our first step in this particular field. The adoption of latest tools and machinery along with a team of dedicated and experienced staff, using proven technology while execution of building modernization and augmentation works provide the company with such a competitive strength, which is difficult for its competitors to imitate.

We work in open environment that embraces change, new ideas, respect for the individual and equal opportunity to succeed. We live our values to measure our success with the success of our customers, shareholders, employees, communities and people. Towards the end, our company management professionals operate by understanding the requirement of our clients, developing relevant strategy implementing improvements and ideas and finally, monitoring on continuous basis. We believe in partnerships focused on performance, environmental protection and in employing and practices that allay public fears and perceptions in the matter of public health. Besides, our core competency we provide services covering following disciplines also

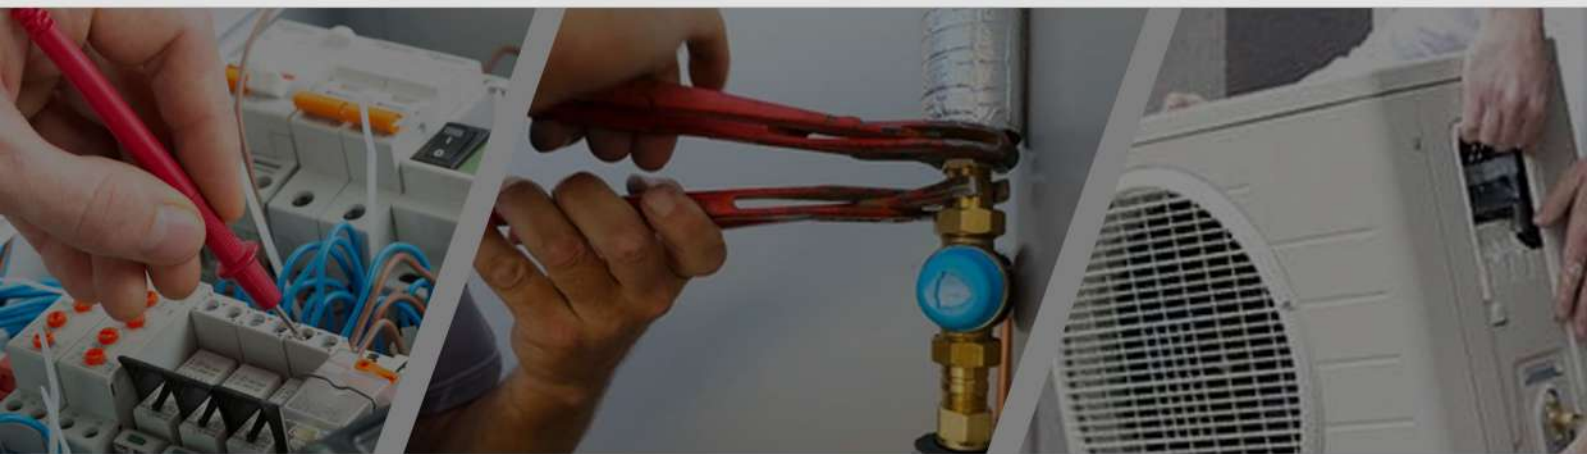

-  Fire alarm cum detection systems.
-  Security, CCTV and burglar alarm system.
-  Repairs and refurbishment.
-  Up-gradation and modernization of existing technical installations related to HVAC, Plumbing, Electrical, Computer data networking, Water treatment & STP etc.
-  Energy conservation.
-  Complete energy audit of services – both for new as well as running facilities.

Company's strong belief is in pre-planning and mutual co-ordination results in attainment of ascertained goals on time and as per client's satisfaction. A high level of quality supervision for raw material to be used and workmanship during execution are taken in consideration to provide high quality result. Precautionary personal protective equipments and various safeties procedures are used for occupational health and safety for the employees.
